

## Anti-Wink Tong Holder

**A durable, lightweight tong holder ideal for high speed operation.**

Increased IS machine speeds often create container defects as the standard Tong Holders closes or 'winks' under the rapid deceleration of the Tong Arm mechanism.

The Lattimer Anti-Wink Tong Holder eliminates this issue with an innovative linkage mechanism design, this, together with a number of specific design improvements, ensures that the Lattimer Tong Holder delivers high quality, reliable performance and extended life, as well as being interchangeable with those of other manufacturers.

### Benefits

- **Lightweight aluminium anti-wink design**
- **Pin and link geometry ensure links 'over travel', guarantees 'anti wink'**
- **Hardened Pins:**  
Reduces wear and prolongs life
- **Link holes reamed for accuracy:**  
Reduces wear and prolongs life
- **Links ground to precise thickness:**  
Reduces wear and prolongs life
- **Hard anodised cylinder:**  
Reduces wear and prolongs life
- **Innovative Piston Ring arrangement:**  
Reduced air consumption
- **Anti Wink:**  
Reduced container defects
- **Directly interchangeable with those of other manufacturers**

Supplied to the Container Glass industry worldwide the Lattimer Anti Wink Tong Holder is a proven performer under the harshest of conditions. It is easy to understand why this Lattimer product has become the Tong Holder of choice for many.

**Part Number:** L14354800
